

How Does A Pre-Shipment Inspection Work ?

1

OUR INSPECTOR VISITS THE FACTORY

When goods are 100% completed and at least 80% packed and ready for shipment

QUANTITY VERIFICATION

Our inspector counts the shipping cartons to verify the correct quantity.

2

3

RANDOM SELECTION OF SAMPLES

Total Cartons is randomly selected to ensure the best possible representation.

CONFORMITY VERIFICATION

Our inspector verifies whether the goods correspond to your requirements

4

5

FUNCTION AND SAFETY TEST

Our inspector thoroughly controls selected samples for function and safety

COSMETIC AND WORKMANSHIP CHECK

Our inspector thoroughly checks the selected samples for visual defects

6

7

INSPECTION REPORT

Our inspector issues a report which illustrate the findings with pictures and comments.
